Tools Required

- Plastic Trim Release tool
- Phillips Screwdriver

Procedure

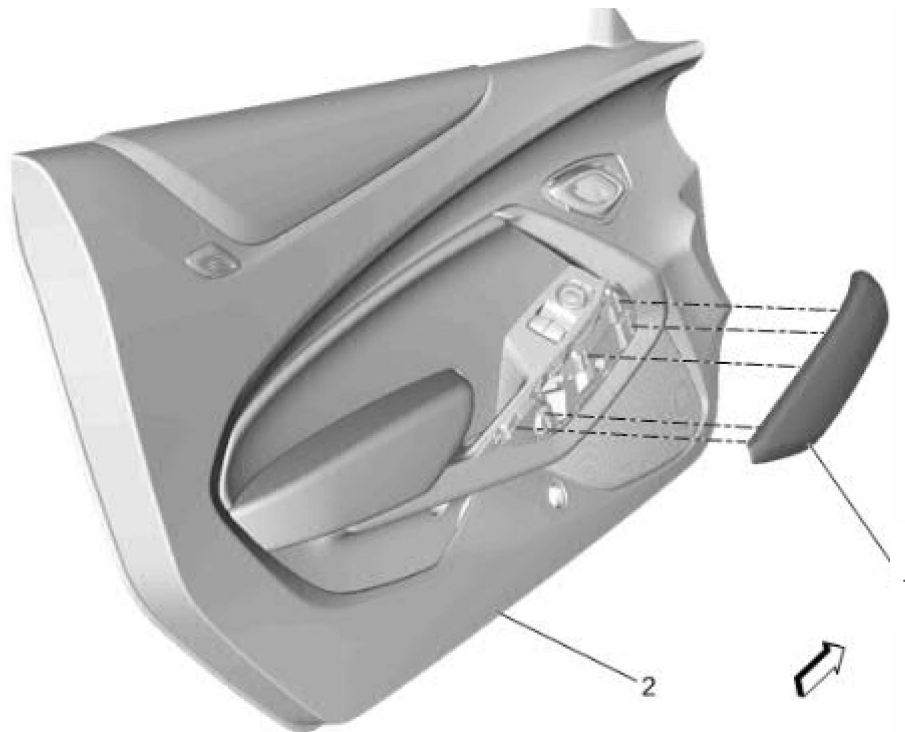

Console Extension Panel

1. Using a flat-bladed plastic trim tool, release the retaining clips (3)
2. Disengage the retaining guides (1).
3. Remove production front floor console extension panel (2) from front floor console (4).
4. Install the accessory front floor console extension (2) to the front floor console (4) by engaging the retaining clips (3), retaining guides (1) and snapping into place.
5. Repeat procedure for opposite side.

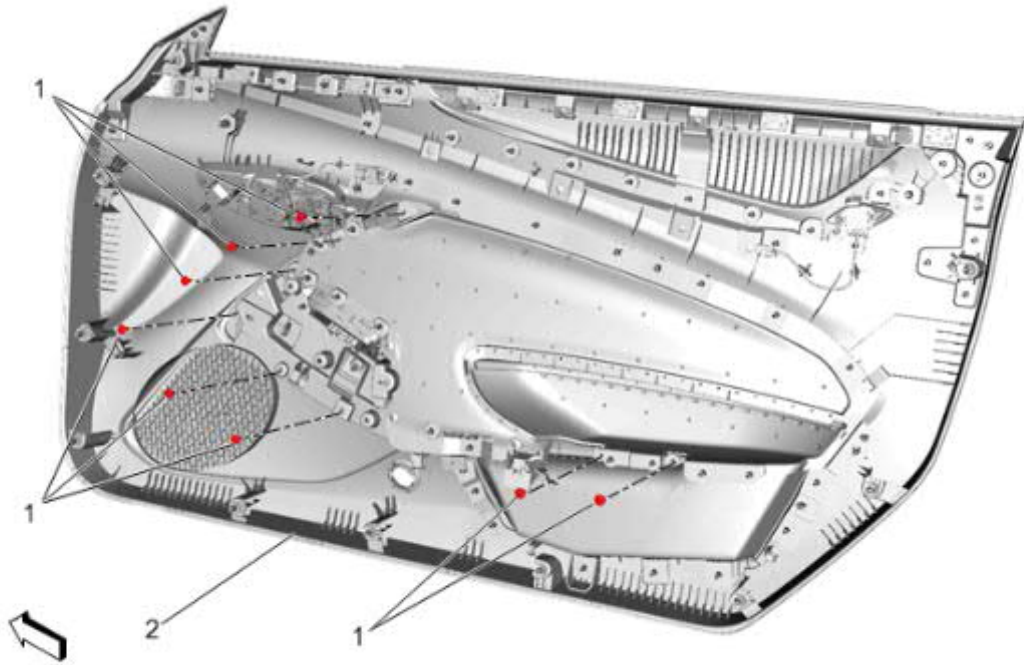

Front Door Applique and Pad

1. Remove the front door trim panel. Refer to Vehicle Service Manual.

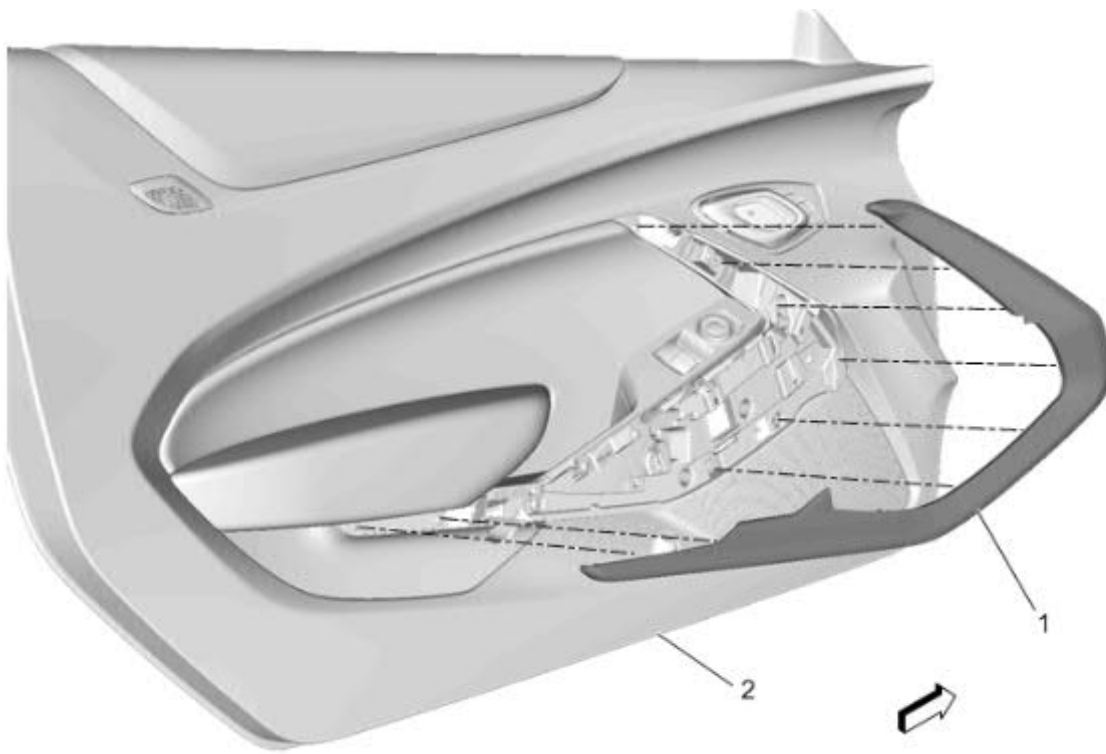

2. Using a flat-bladed plastic trim tool, release the retaining clips and remove the knee pad (1) from the front door trim panel (2).

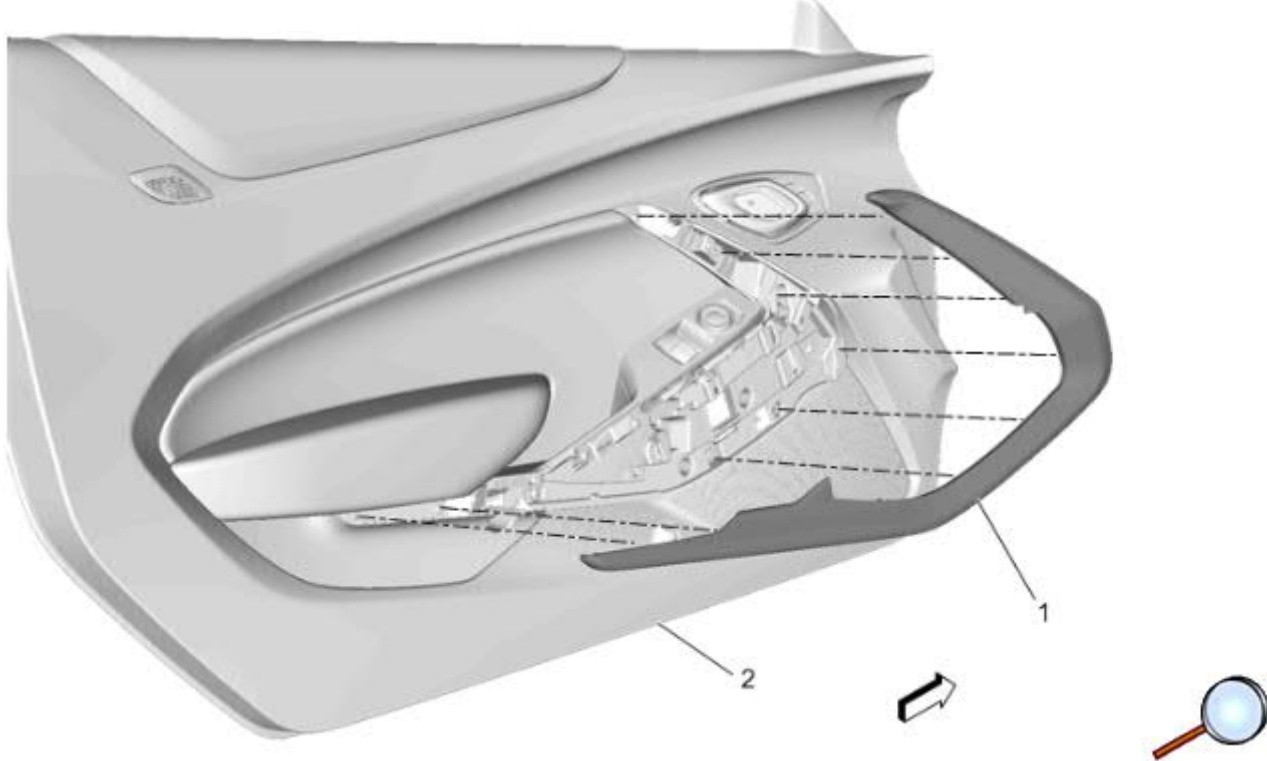

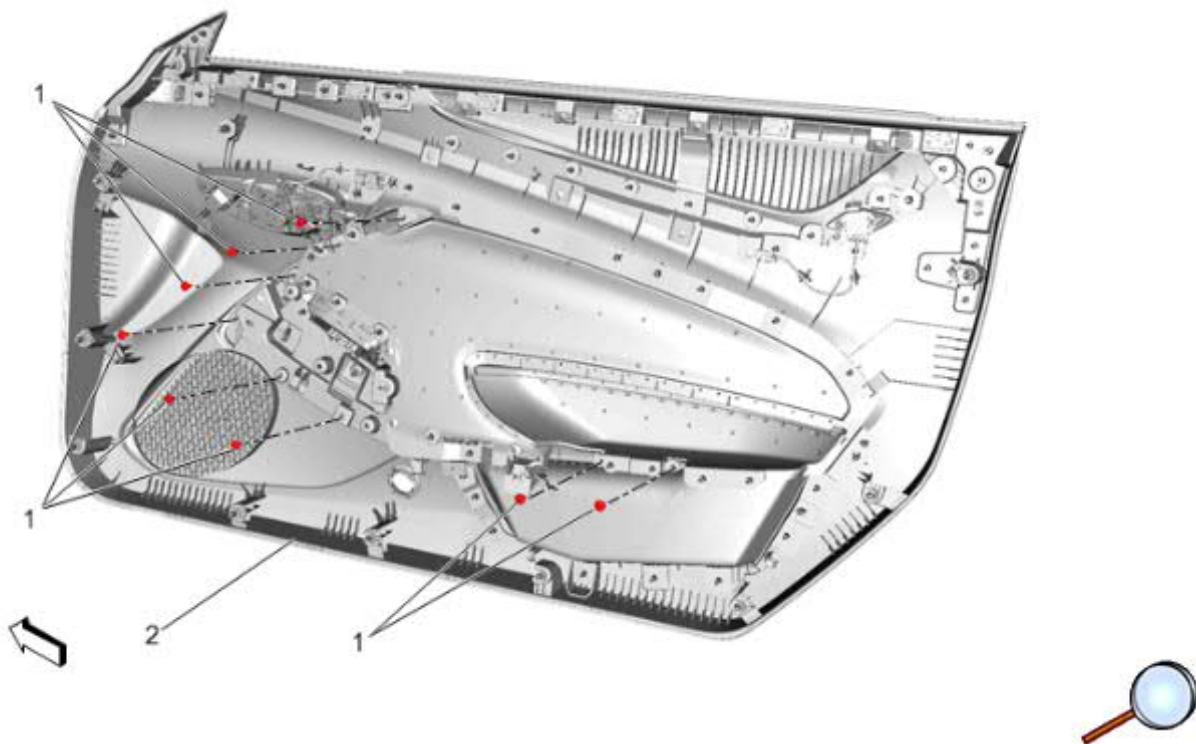

3. On the back side of the front door trim panel (2) remove and retain the screws (1) securing the front door applique.

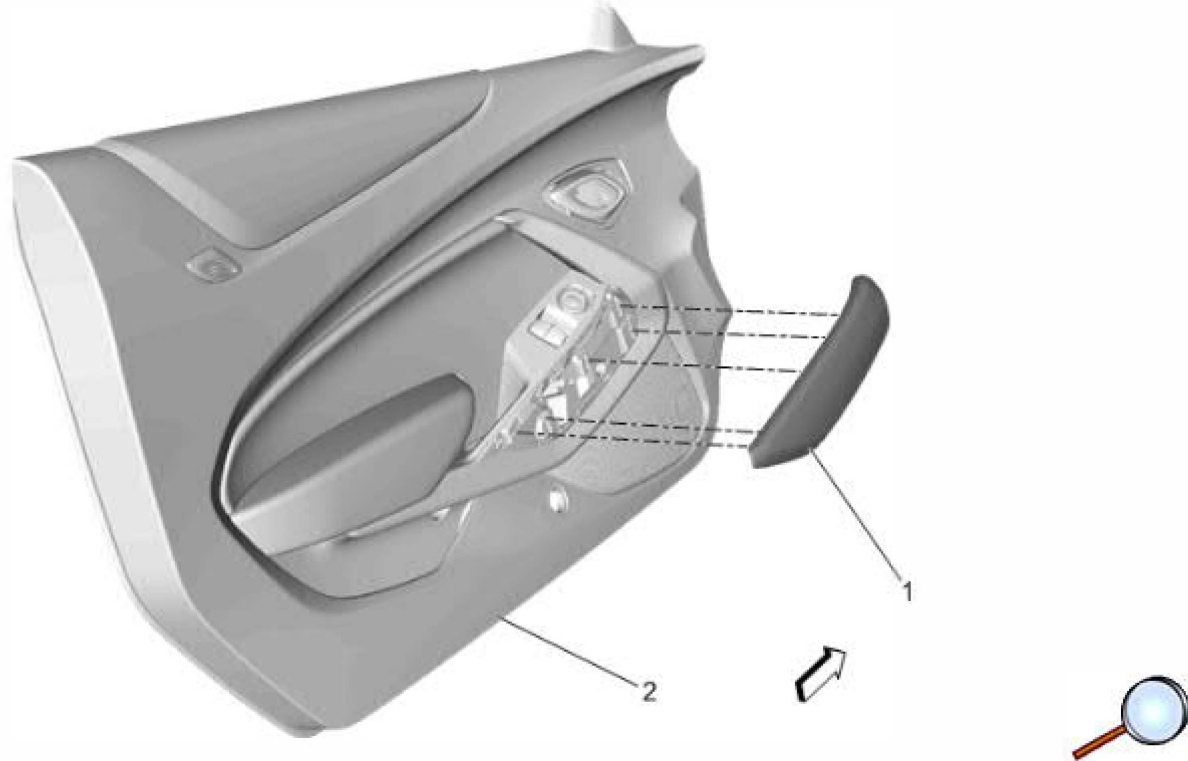

4. Using a flat-bladed plastic trim tool, release the retaining clips and remove the front door applique (1) from the front door trim panel (2).

5. Position the new front door applique (1) to the front door trim panel (2) engaging the retaining clips.

6. On the back side of the front door trim panel (2) install the retained screws (1) to the front door applique.

7. Install the new knee pad (1) to the front door trim panel (2) engaging the retaining clips.
8. Install the front door trim panel.
9. Repeat procedure for opposite side.
