1	One Page Installation Instructions with Authorization Code Label

Procedure (Programming Section)

Programming Vehicle

Note: When reprogramming the body control module, this change requires an update. For assistance, contact Techline Customer Support Center (TCSC) using the Dealer Case Management (DCM) portal in GlobalConnect. Once the case is created, or if additional support is needed, contact Techline Customer Support Center (TCSC) at 1-800-828-6860 (English) or 1-800-503-3222 (French). U.S. Dealers will require a DCM case number for phone support. TCSC will provide programming requirements and instructions. When calling TCSC, please insure the specific vehicle VIN and authorization code is on hand.

1. Reprogram Body Control Module. Refer to [K9 Body Control Module: Programming and Setup](#) in Vehicle Service Manual.
2. Erase all transmitters and relearn. Refer to [Remote Control Door Lock and Theft Deterrent Transmitter Programming](#) in Vehicle Service Manual.
3. After transmitter programming is complete, cycle the ignition from ON to OFF, exit the vehicle and operate the transmitter functions in order to verify remote start operation.

Note: Some vehicles might experience learn time longer than 10 mins and up to 2 hours.

Note: Unlocking vehicle via current valid key fob will disarm vehicle.

MYBrand App Feature Steps

1. Process time to see the "remote start" feature/button on the MyBrand app can **take up to 2 weeks** to show up in the app.
2. The customer must have onstar module equipped in their vehicle and have active subscription to onstar.
3. If the customer has onstar module equipped in the vehicle with active onstar- they will be able to use MyBrand on their phone to lock, unlock and remote start their vehicle.
